MARKS AN EPOCH IN THE HISTORY OF ARTIFICIAL LIMBS.

MARKS PATENTS from 1854 to 1895 cover all the accredited improvements in artificial legs and arms, and make the Marks artificial limbs peerless. Rubber feet remove jar and make the stump-bearings easy. Rubber hands extend the limits of accommodations.

Light, Durable, Practical. Do not get out of order, are inexpensive to wear. Appreciated by over thirty-eight thousand wearers. Forty-six highest awards granted by Industrial Expositions.

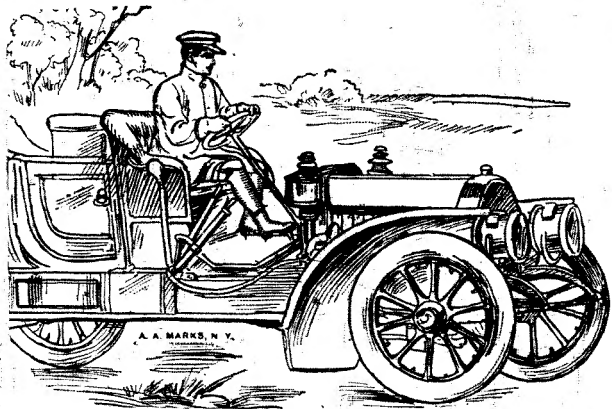

Appointed by U. S. Government, railroad companies and other large corporations to furnish artificial limbs to pensioners and employees.

The Limits of the utility of Marks artificial limbs are unbounded. Persons wearing them engage in every occupation and profession.

George L. Childs, Chauffeur, Essex County, N. J. "I have been wearing one of your legs for over three years, and have found it the best in the world. I have been chauffeur for nearly two years, and have been driving the Peerless motor car with good results. I can recommend your limb to anyone in the world, and I will be glad to do so."

Send for **Manual of Artificial Limbs**, containing 432 pages, with 724 cuts. Instructions are given how to take measurements and obtain artificial limbs without leaving home.

THE City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the classified list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern up-to-date method of getting what you want.

WHAT WE DO.

We keep your gas pipes and burners in good order, attend to complaints, pump out the pipes, stop leaks and flickering lights, furnishing tips and burners free, and attach our Standard Automatic Gas Regulator to the pipes, which controls the pressure, allowing no waste or blowing, preventing the breakage of globes and mantles, and saving from 15 to 40 per cent. We charge a monthly rental for the regulator and service, according to the average consumption of gas.

BRADSTREET'S

EXECUTIVE OFFICES,

Nos. 346 and 348 BROADWAY, NEW YORK CITY.

OFFICES THROUGHOUT THE CIVILIZED WORLD.

THE BRADSTREET COMPANY gathers information that reflects the condition and controlling circumstances of every seeker of mercantile credit. Its business may be defined as: "Of the merchants, by the merchants, for the merchants." In procuring, verifying and promulgating its information, no effort is spared, and no reasonable expense considered too great that the results may justify its claim as an authority on all matters affecting commercial affairs and mercantile credit. Its offices and connections have been steadily extended, both on this and other continents, and it furnishes information concerning mercantile persons throughout the civilized world.

Subscriptions are based on the service furnished, and are available only by reputable wholesale, jobbing, and manufacturing concerns, and by responsible and worthy financial, fiduciary and business corporations. Specific terms may be obtained by addressing any of the Company's offices.

New Jersey Freie Zeitung

NEW JERSEY'S OWN
GREAT GERMAN DAILY.

PUBLISHED EVERY MORNING.

(ESTABLISHED 1858.)

DAILY AND SUNDAY for Fifty Two years, the "Freie Zeitung" has been an ever welcome morning visitor in the homes of the thousands of well-to-do German-Americans throughout this city and county.

As a first-class family newspaper, with a capable staff, and the Associated Press telegraph and cable service, it has a powerful influence, its editorials and news matter being widely quoted and copied by other newspapers.

As an advertising medium, the high quality of its circulation, and the fact of its having an exclusive field, produces excellent results for stores, real estate agents, banks, and every good, honest proposition, as its perpetually well filled advertising columns plainly testify.

Newark is a German-American city, and any advertiser who attempts to cover it without using the German-American newspaper deliberately cuts himself off from the business of a very large proportion of the population.

NEWARK, N. J.

--- --- **THE** --- --- **NEWARK EVENING NEWS** --- ---

with a daily circulation of 70,000 is the best médium for the advertiser because it goes directly into the homes at a time when the family are together and can talk over intended purchases; and it reaches the buying public at a time when they are ready to consider what is advertised.

THE is popular alike with both reader and advertiser because **EVENING NEWS** it is metropolitan in every sense, being replete with features that interest every member of the family.

THE is also the recognized classified advertising medium in its field. The rate for this line of business is one cent a word; no advertisement received for less than twenty cents except employment wanted. For this class of publicity one cent a word, minimum ten cents.

LAUTER PIANOS

Superbly beautiful tone is primarily the explanation of the unique standing of the LAUTER PIANO in the esteem of those who are acknowledged experts in things musical. This instrument has wondrous beauty of tone, combined with great delicacy, and, at the will of the performer, remarkable sonorousness as well.

The LAUTER products are :

IN FORCE JULY 1, 1909.

That any person who willfully and for profit shall infringe any copyright secured by this Act, or who shall knowingly and willfully aid or abet such infringement, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by imprisonment for not exceeding one year, or by a fine of not less than one hundred dollars nor more than one thousand dollars, or both, in the discretion of the court.

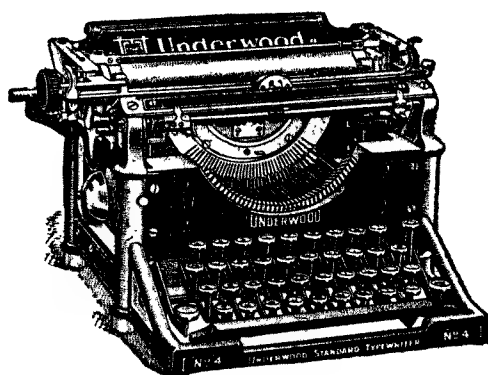

— Simplicity —

in a typewriter secures durability, ease and efficiency of operation, and increases the speed and accuracy of the work: the

UNDERWOOD

STANDARD
Typewriter

is a
Marvel
of
Simplicity

Yet every part is carefully chosen as the best possible means to the perfect finished product.

There is nothing hidden about the Underwood. The type-bars lying when at rest in a compact segment; the patented guide—all the parts which permit the visible writing—which help, not bother, the operator will be shown you, explained also if you like; but really you'll see for yourself why the Underwood *does* endure and why its operation is so easy, quick and accurate.

Quiet Tabulating.

There's one good thing about the Underwood you'll be glad to know if you have tabular work to be transcribed in typewriting:—its tabulating attachment moves the carriage to the right point quickly and without jar—without startling the clerks and making the whole office jump. Then the visible writing of the

UNDERWOOD

STANDARD

Typewriter

gives immediate assurance of correct work. In making out bills, statements, comparative records, the tabulating device assures correct alignment in decimal columns—unit under unit, tens under tens, and so on.

The purpose of the tabulating device, the visible writing and other valuable features of the Underwood is to save time, trouble and money in your office and promote efficiency. You ought then to be glad to know all about them. Suppose you call in. Our man will help—not bother you.

NEWARK

The Centre of a World's Great City.

WHY Industries are Locating in Newark.

GEORGE H. REEVE, President.

It is a real centre of manufactures with its 5,623 manufacturing plants in successful operation.

The great diversity of its industries makes it a centre for over 69,370 skilled mechanics and artisans.

It enjoys the best of railway and water shipping facilities, the rates by water regulating the rates by rail, giving it every advantage in freight rates.

Its railway facilities, via the Pennsylvania, Lackawanna, Erie, Lehigh Valley and Reading System, are direct with all parts of the United States.

The mileage of tracks of the five railroads afford spur connection to a large area of land for factory purposes at reasonable cost.

It has 254 freight trains daily, the annual tonnage movement by rail to and from Newark for 1908 aggregating 4,718,227 tons.

Its municipal policy is to encourage manufactures, as Newark looks to and depends upon the success of its industries for its progress.

Newark has a waterfront of 10½ miles on Newark Bay and Passaic River; width of channel 300 feet, depth 21 feet.

Newark Bay waterfront property, within 15 miles of New York by water, offers excellent opportunity for factory and warehouse uses.

J. M. REILLY, Secretary.

D. H. MERRITT, Treasurer.
